

Preparation of a regional SEAP

Prepared by: EVE
ENNEREG-Climact regions Joint
Event,
21st October 2011, Lyon

Regions have an important role in the achievement of European 2020 objectives

Ennereg regions

Objectives of the SEAP

- To move towards a more sustainable model:
 - Use of energy
 - Use of fossil fuels
 - Climate change
- Link it to climate change action plans!
- Identify areas of action to save energy, increase energy efficiency and use of renewable energy

What is required

Approach for the regional SEAP

- Planning and organization
- Regional energy assessment
- Vision
- Definition of Action Plan
- Financial resources
- Plan Approval
- Implementation
- Monitoring and reporting

Initial survey on the energy framework

- Assessment of regional conditions: Trends, potentials, framework, plans
 - Sectors: industry, buildings, transport, primary
 - Energy infrastructures: gas, electrical, other
 - Renewable energy: Wind, PV, solar thermal, other.
- Learn about European and National plans and goals
- SWOT

Establishment of initial goals

- Long term vision and goals are required
- Aligned with EU objectives to 2020
... and with national objectives
- Climate change is a lever for pushing forward energy objectives

Be ambitious and realistic

- Modeling tools are needed

Stakeholder network

Identify
stakeholders

- Big industry, industrial clusters
- Utilities
- National to local Administration
- Social organizations (associations, NGO)
- Energy users
- Promoters of projects (investors, financial institutions...)

Define
communication
tools

- Meetings
- Regional workshops
- Steering committee
- Public participation

Obtain feedback

Consulting

Decision

Action

The SEAP: policies and actions

- Define general policies and specific measures
 - Buildings sector
 - Transport
 - Renewable energy sources and distributed energy generation
 - Administration sector, public buildings, procurement
 - Utilities, energy supply, distribution
 - Coordination of municipalities
 - Urban & land use planning
 - Industry, SME

The SEAP: policies and actions

Policies and
measures
are
implemented
through:

- Regulation
- Public promotion of projects and infrastructures
- Public-private partnerships
- Financing
- Education
- Communication

Approach for the regional SEAP

- Planning and organization
- Regional energy assessment
- Vision
- Definition of Action Plan
- Financial resources
- Plan Approval
- Implementation
- Monitoring and reporting

Thank you
