

The Life of a Cow

The cow is a very important animal in the village. It gives us milk and helps us in many ways. The cow is very hardworking and gives us a lot of milk every day. We use the milk to make curries and other things. The cow is also very useful in the field. It helps us to plough the land and to carry heavy loads. We should take good care of the cow and give it plenty of food and water.

Some names of cows

Bull

Friday 2 November 2009

hello, this is our national assembly. We
love the games that we play
we like reading books and playing a lot of
things with the numbers every day.
we love school and we are happy to have
friends from other
we have four ministers in our class
and four other things.

THANK YOU
